Let use quivalent.

If the customer makes Cash withdraws over the specified limit, despite the number of daily transactions (cash withdraw) from the same account (currency), the commission is applied over the total amount withdrawn.

Ex: The number of daily transactions is 3 (three), and respective amounts are 15,000, 10,000 and 8,000 Euro, the commission is calculated (15'000 +10'000 + 8'000) = 33'000 Eur x 0.10% = 33 Eur.

""" Clients must notify one day before the transaction

""" The specified limit is the cumulative monthly Cash withdrawal by the same account (currency), regardless of the number of transactions.
